NUVIA

POINTMAN

BUILD ON THE SECURITY OF YOUR CARDS.

Lamination adds a layer of protection to your cards. Reduce counterfeits, tampering, and duplication, and increase durability—in one easy step. Securely laminate PVC cards, smart cards, and mag stripe cards.

- Detect fraudulent cards with the holographic image embedded in the laminate.
- Increase the life of your cards up to 5-10 years.

PUT SECURITY WHERE YOU NEED IT.

- ID badges
- Access control cards
- Bank cards
- Gift cards
- Loyalty cards
- Membership cards

WHY PICK POINTMAN?

After years of leading the card printing market in the Asia Pacific region, Pointman has brought its global reputation for quality and affordability to North America. Our direct thermal and thermal transfer printers and laminators integrate the most advanced technology, which is supported by extended warranties and responsive service. Discover your new trusted provider.

NL200 LAMINATOR: STANDALONE AND OUTSTANDING

If your current card printer doesn't include a laminator, the Pointman NL200 fills that gap. This compact laminator fits in even the tightest spaces, and delivers the ease, performance, and affordability you need:

- **SIMULTANEOUS, DUAL-SIDED LAMINATION.** With one pass through the NL200, your cards are laminated on both sides, maximizing the card's strength.

- **EASY TO USE.** Drop in the laminate cartridges and follow the on-screen prompts. In the event of a card jam, just turn the knob.

- **FAST.** The NL200 heats up in 40 seconds or less, and produces dual-sided laminated cards in just 20 seconds.

- **HIGH VOLUME.** Load up to 100 cards at once with the optional hopper—or add the dual hopper to double the volume! Plus, one laminate cartridge will cover 500 dual-sided cards.

- **2-LAYER, TAMPER-EVIDENT FILM.** Pointman's lamination includes two layers: a 1.0 mil film with a holographic patch and a clear holographic varnish. Ask about our custom holograms.

- **LOCKABLE.** Add the optional enclosure lock to prevent unauthorized use.

- **AFFORDABLE.** The Pointman NL200 is competitively priced at less than $XXX.

PRINT. THEN PROTECT.

The NL200 can be paired with the Nuvia N20 or N30 card printer to create an all-in-one card printer with built-in laminator.

The NL200 is available as a single- or dual-sided laminator, so you can choose the model that suits your needs. It's also backed by a 5-year warranty, plus an Advanced HotSwap for 5 years.
